

8th Summer Latin Assignment:

Summer is quite lengthy and gives you many opportunities to identify your personal academic needs! Feel free to use the Cambridge vocab tester, LatinTutorial (on YouTube), Magistrula, Quizlet, etc. to prepare for Latin II in the fall, just as you may be planning to use jogging, push-ups, or other forms of exercise to prepare for fall sports! *That* is our summer assignment: reviewing as you see fit and in response to your own needs. However, to focus your efforts, be aware that our second week of school we will have our first chart test. That test was given to you in class and is available here for studying. Chart tests may be retaken as many times as you wish until the end of the current trimester, and are focused on strengthening core knowledge.

The Second Week of School, You'll Have Your First Chart Test!

Stay sharp and minimize the number of retakes.

Your summer homework is to prepare for this chart test.

All charts are freely accessible on the Internet, e.g., Wiktionary.
