

## 6th Grade: Summer Math 2018

6th grade **Paragon Prep** students will do summer math review via the Accelerated Math® program. Mrs. Lype will be your contact on the summer math work! Students should have 30 (up to 36) testable AM objectives by August 13 (first day of warm-up camps – whether you attend or not). The main goal for summer AM is to keep the math gears from getting rusty!

Summer Accelerated Math® practices will be of the on-line format. Your account will not be available until around the middle of June – around June 15. I will release the summer AM material in three parts on June 15th, July 3<sup>rd</sup>, and July 20th. This is to keep them from doing all their AM in the first week and spread it out across the summer.

Access to the program: Go to <https://hosted57.renlearn.com/240438/homeconnect/>

- Log on using your **User name** and **password**. (If you need help e-mail [melissa@paragonprep.com](mailto:melissa@paragonprep.com) for this information.)
- Once you have logged in, choose on the upper right “**WORK ONLINE: Open Accelerated Math,**” **then** using the upper left tab, click on start under the Practice box.

**Practice: Start.** From here you should be on your way to math success. **For maximum success:** Have paper or a composition book handy where you are doing your work. Practice organization – number your problems, be neat with your work. ***That is what we will be doing this year, so it is good to get used to it.***

AM problems are designed to be done **WITHOUT THE AID OF A CALCULATOR**. You will be tested over these objectives for mastery over the first weeks of the school year – for your AM tests you will NOT be allowed to use a calculator – so please try to complete your summer practices in this manner, ensuring maximum success in your testing. Remember– if you have any troubles in using this program please e-mail me for help. [melissa@paragonprep.com](mailto:melissa@paragonprep.com). ALSO, if you are having any problems with the math problems, please drop me an email!

Have a great summer!

Mrs. Lype
