A Place to Grow:

Where learning continues beyond the school day

Our Before & After School Programs offer students enriching opportunities for discovery and exploration before and after the normal school day hours. These programs provide numerous options for fun while also reinforcing the essential lessons and values taught throughout the school day.

After Care

Our After Care program allows busy working families the flexibility to pick-up after the normal dismissal time. Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills, and to reinforce the skills they're learning during the school day, while providing plenty of time for fun with friends. We also make time for students to complete their homework.

Program Details:

- Hours: 3:00-6:00 pm
- Nutritious snacks to help children form healthy eating habits
- Dedicated and specially trained staff members with experience in working with children of all ages.

Clubs & Enrichment

Our Clubs and Enrichment Programs are great ways for your child to expand on their interests or pursue new passions. These can be added in conjunction with our Before School or After Care Program or independently. This program offers families an opportunity to enroll their student in one or more days of after school activities without leaving the convenience of our campus.

Program Details:

- Hours: Varies by Club & Enrichment
- Nutritious snacks to help children form healthy eating habits
- Dedicated and specially trained staff members in specialty area.
- Special Programs to foster learning after school.

After Care Program

After Care Program

Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills and to reinforce the skills they're learning during the school day.

Students explore the exciting world of science, technology, engineering, art and math (STEAM) through building projects, experiments, and design challenges. Sharing ideas, asking questions, and making predictions are encouraged!

Robust outdoor free play and structured games help students learn sportsmanship and develop their physical strength and endurance. Students learn critical thinking and problem solving by participating in board games and team challenges with their peers.

Students express themselves by participating in hands-on visual arts, including photography, videography, drawing, and painting. Students develop planning skills by working on long-term projects with their peers and can participate in group performances or discussions.

Social and emotional growth is nurtured through student and teacher led activities that promote a feeling of community and belonging. Students learn through open-ended activities that give them a chance to apply problem-solving skills and collaborate with friends.

Some students appreciate the chance for independent activities or study after a long day at school. We provide a quiet place to work on homework, read, journal, or seek academic support from peers and teachers. Students can also work on various projects in this small group setting.

Clubs & Enrichment

Beat 4 Beat - Guitar

Learn basics to intermediate skills, guitar anatomy, tuning, chords, and strumming. Learn popular songs together. You can bring your own guitar or we can supply one for you.

Grades: 3rd-5th
Starting January 16th - May 6th
Tuesdays and Thursdays, 3:45-5:15pm
Cost: \$690
Instructor: Jaye Maverick

Beat 4 Beat - Keyboard

Learn basics to intermediate skills, proper techniques, and dive into popular melodies on the keyboard..

Grades: 3rd-5th
Starting January 16th - May 6th
Tuesdays and Thursdays, 3:45-5:15pm
Cost: \$690
Instructor: Shanna White

Beginning and Advanced Band ****Occurs Off-Campus**

Paragon offers a 4-year band program to students in grades 5 - 8. The program teaches students to play instruments in a group and prepares them to join any high school band program in 9th grade. Beginning band is a year-long class that will teach your child all they need to know to perform music. We teach note reading, proper sound production, and everything needed to play great music.

Grades: 5th-8th
Monday-Thursday
7:30-8:10am
Cost: \$550 (for the year)
Instructors: Richard Waller, Eric Bittner

Riseup Stars - Dance (PreK-2nd)

Get ready to move and groove! Students will experience different styles of creative movement and dance (i.e. hip hop, creative movement, rhythm-based movement, and more).

Technology & Engineering

Intro to Scratch Coding

Coding is creative and teaches children to think critically. They are limited only by their imagination! The My Coding Place instructors introduce students to Scratch, developed by MIT, a fun friendly platform which kids use to create animation and games while learning coding concepts.

Grades: 1st-5th (7 years of age or older)

Starting Jan. 24th - May 8th

Wednesdays 3:45-4:30pm

Cost: \$575

Instructor: Blake Smoot

Intro to Python Coding

Coding is creative and teaches children to think critically. For coding, python is a great first typed language to learn for beginners! Learn to use loops, counters, conditionals, and other basic coding constructs through building fun projects in Python with instructors at My Coding Place..

Grades: 6th-8th

Starting Jan. 23rd - May 7th

Tuesdays 4:00-4:45pm

Cost: \$575

Instructor: Blake Smoot

Other Clubs

Paragon Chess Club

Coach Gary Gaiffe offers group chess lessons each Tuesday morning at 7:15. We look forward to welcoming new and returning club members. No chess knowledge or experience is needed to begin, only the desire to learn.

Grades: Kindergarten-8th

Starting Jan. 9th - May 21st

Tuesdays 7:15-8:00am

Cost: \$230

Instructor: Gary Gaiffe

Math Pentathlon

Join this program for fun, interactive problem-solving games as well as supportive curricular and instructional activities with Paragon's own David Lok.

Grades: 2nd-5th

Starting Jan. 16th - May 9th

Tuesdays - 2nd & 3rd - 4:00-5:00pm

Thursdays - 4th & 5th - 4:00-5:00pm

Cost: \$75

Instructor: David Lok
